

## The Educational Trust

The Desk and Derrick Educational Trust (ET) was created in 1982 by the Association of Desk and Derrick Clubs (ADDC) for the purpose of awarding annual scholarships. All scholarships are made through accredited colleges and universities offering degrees, such as geology, chemical and petroleum engineering. The number and amount of the scholarship awards vary from year to year and are available to eligible full-time students and ADDC members who are part-time students.

## Eligibility

To be eligible for a scholarship from the Desk and Derrick Educational Trust, applicants must meet the following criteria:

- At least two years or currently enrolled in the second year of undergraduate study at an accredited college or university.
- Grade point average of 3.2 or above on a 4.0 grading system (U.S.) or 80% (Canada).
- Financial need.
- Career in petroleum, energy or allied industry.
- Citizen of United States or Canada.

Your investment in the Educational Trust to fund students is vital today. Please remember the Trust with donations honoring speakers, seminar leaders, employers, employees, members, and memorial remembrances. Whatever the reason for making your tax-deductible donation, a student will greatly appreciate and benefit from your action. Your company may want to make a matching donation. A donation form is available at:

## TAX DEDUCTIBLE

The Desk and Derrick Educational Trust is an exempt organization under section 501 (c) (3) of the U.S. Internal Revenue Code. All contributions are deductible for United States income taxes.

## YOUR FINANCIAL SUPPORT CHANGES LIVES

Since its inception in 1982, ET's mission remains unchanged to build the future of the petroleum, energy and allied industries through scholarships while earning the support and trust of Desk and Derrick members and industry donors.

The Educational Trust has received many touching thank you notes from scholarship recipients over the years. The recurrent theme is that without their ET scholarship, they would not have been able to finish their education. These young people are very driven and excited to reach their goal of working in the energy arena. Without your continued financial support, they might become "stuck in the hole" with no hope of taking a place in the petroleum and energy industry.
